Dear Bonnie,

Well darlin, we finally made it. Now what are we going to do - plot our escape I guess - I'll post it to you & you will stand out in my memory just a long as I live. How much your friendship has meant to me during the past two years we have known each other. In fact, I don't know what I would have done late B times if you hadn't been there to urge me on. Now we have spent together - going places & (completing) the times we have spent together - going places & (completing) the times we have spent together - going places & (completing) the times

# EPILOGUE

And as we add the final link to complete our chain for this year, we can look back and honestly say that our chain is very strong. We hope you have enjoyed our book and we now leave the following links to the future.

Dear Bonnie -

As this year comes to a close and we all go our separate ways, I did like to say it has been wonderful knowing you. Never forget shorthand and the fun we've had. Best of luck always from a friend

Dear Bonnie,

Jere again I say, quite knocking my eye out with that gorgeous ring. All the kids are sure envious of you. I know you will be very happy and very succesful at whatever you do. It sure has been fun these past few years. I only regret that I haven't known you better. Thanks for all the "trade" you gave me while I was working out at the "Redwood"

I know you will be very succesful as someone's secretary and also as someone's spouse. How about raising a basketball team. Be careful that they dont get to good as to beat Mesa High we couldn't take that now could we—

always your pal,
Jean Anderson

NEVER COME HOME LIKE THIS—

Dear Bonnie,
It really was swell knowing you this year. Lots of luck always.
And I hope you go a long way.
Always a friend
Gertrude Hancock

The social activities at Mesa High have proved to be the highlights throughout the years. Parties, dances and gala events have kept the drudgery out of our school life. They were always well attended and created fond memories for all.

# foreword

"A chain is as strong as its weakest link." How strong is our chain? Let's turn back the pages and gaze upon the past.

This chain consists of fifty large links, each one representing a year of Mesa's High existence. Through the years our school has grown. Not only has the campus and building prospered but our curriculum, our social activities, our sports program and our faculty have all helped to create the feeling of satisfaction in this successful endeavor. It took years of patience, skill, labor and valued knowledge to produce Mesa High.

Let's now take a look at the present standing of our school. We have now added the golden link to this chain signifying the Golden Jubilee year of Mesa High.

Dear Bonnie,
Congratulations
on your achievements,

most of all your choice of a
